WHEN PETE MOON first suggested the idea of a bibliography of discographies, it struck me as very surprising that, in a field where so much importance is attached to discographical data, no other jazz fan has come up with such a project. Or, if they have, it has got no further than the drawing board, whereas Mr. Moon presented me with a fait almost accomplished: a list of over 150 discographies. Since then we have been working on it in an attempt to make it as complete as possible. We were helped in this by Reg Cooper's persistent and invaluable plugging in his "Jazz Information" column, as a result of which we received some additional information from Messrs. Jorgen Grunnet Jepsen and Michael Sparke, who brought us up to date with regard to their own listings. We would also like to acknowledge the assistance of John C. Irwin of Garden Grove, California, who checked the first draft and provided some additions.

Some points about the form and layout of this publication. Pete chose 1960 as the commencing date because until then listings tended to be rather incomplete. In addition, those printed before then will be probably out-of-print as well as out-of-date by now. We have also confined the bibliography mainly to single-artist listings; after all, everyone knows about the regular issues of Jepsen and Jazz Directory. We also have left out label listings for similar reasons, though I would mention here Jim Hayes 'label-a-month' project. Were we to include it in our listing, we would obviously be behind the times when we reached publication date, but suffice it to say that such as the Columbia CB series and the Vocalion Swing series have already been covered. The main listing here is alphabetical, although the names appear in the order of first name, then surname. I think it's quite clear like this; the other way tends to look too much like an inventory, quartermasters, army, personnel for the use of. After the main section there are appendices giving details of the collective discographies published by Jazz Discographies Unlimited, and of the prodigious number of listings by Mr. W.F. Van Eyle. Both he and Ernie Edwards kindly supplied us with details of their work.

As with all works of this nature, we realise that it will more than likely be out of date by the time it is ready for distribution. For this reason we have made it loose leaf, and intend publishing a supplement each year to cover the additions of the previous twelve months. We will charge 5/- for a life subscription to this, mainly to cover postal costs. It need hardly be said that additions and corrections will be very welcome, and will be included in these supplements. It's now up to researchers and discographers, in fact all jazz enthusiasts, to use this work to try to eradicate all wasteful duplication in this valuable field, which demands so much effort for so little reward.

N.B. A number of the above discographies may be out of print, or not readily available for some other reason. However, the chances are that you'll be able to get whatever publication you need from the BLOOMSBURY BOOKSHOP, which specialises in out-of-print jazz books, and can also supply back copies of all the major magazines. I strongly recommend that you visit (or write to) 31-35 Great Ormond Street W.C.1. (Prop. Teresa Chilton).

Jorgen Grunnet Jepsen is in the process of revising all his 1960 booklets and is at present working on Sidney Bechet (2 vols), Miles Davis, Monk/Powell, Count Basie (2 vols), Dizzy Gillespie, John Coltrane, and a listing of "free jazz" (Ayler, Cherry, Coleman, Sanders, Shepp, Taylor.)

If you are, or know of anyone who is, working on listings of any of the above, please get in touch with the discographer who is engaged on a similar project. Addresses will be found in the appendix. Failing this, notify Reg Cooper of "Jazz Journal" from whose column much of the above information was culled. Without such co-operation the whole purpose of this booklet will be sabotaged.

MR. W.F. VAN EYLE of Leverkruidweg 28, Zanndam, Holland, has compiled a large number of listings which he has published as booklets containing matrix number, titles, personnel, dates, un-issued takes, rejected takes, airshots, and are duplicated with a Din-a4 format. They do not, however, detail record releases, as Mr. Van Eyle feels that with so many re-issues, and the consequent obsolescence of the information, the work is not merited.

THE KENTON DIRECTORY is the current project of MICHAEL SPARKE and PETE VENUDOR who seem to be the definitive Stan Kenton discographers. They have published thus far the following books:-

"KENTON ON CAPITOL"

by Pete Venudor and Michael Sparke.

Covers 1940-65, and includes transcriptions, airshots, promotional discs. Does in fact detail discs other than those on Capitol. Also gives playing times, composer credits and lists of soloists.

"THE GREAT KENTON ARRANGERS"

by Michael Sparke

Published in January 1969, this includes discographies of Bill Holman, Johnny Richards, Gene Roland, Pete Rugolo and William Russo. Published by Ernie Edwards Jnr. price 17/- or \$2. The book lists only those sessions made under the arrangers' own names.

"THE STAN KENTON DIRECTORY"

by Pete Venudor and Michael Sparke.

Volume One published December 1968 price 19/- or \$2.25. at Tollensstraat 94, Amsterdam 13, Holland.

Covers 1937 - 1949, and includes commercial recordings, radio transcriptions, V-discs, private recordings, film soundtracks, AFRS transcriptions series, location air-checks (CBS, NBC, MBS, ABC), plus a full index to the SK band library, whether recorded or not, with composers, arrangers etc.

Volume Two ("The Fifties") to be published May-June 1969, and will include a complete listing of the 1952-53 "Concerts in Miniature" NBC air-checks.

Volume Three ("The Sixties") to be published late 1969.

All the above can be ordered from Michael Sparke, except "On Capitol" which is now out of print, from 39 Wills Crescent, Hounslow, Middlesex, but supplies are kept in Holland and Whittier, California (in the case of "The Arrangers"), so sufficient time must be allowed for delivery.

Below is a list of addresses of some of the discographers whose work is mentioned in the bibliography, for use if you want to send them additions or corrections, or in some cases if you want to obtain one of their booklets. Those whose names do not appear here can probably be contacted through the magazine in which their discographies appeared. A list of these magazines is also included below:-

NB; in the original bibliography the pages beginning with Jaki Byard suffered a line-slip. On the right-hand page, the six lines starting with "booklet 1961" and ending with "booklet No.7" should be moved down one line to correspond with; "Coltrane ; Coltrane ; Coleman ; Colyer ; Conley". In addition, of course, Coleman should be placed before Coltrane, and on the pages beginning with "Bud Powell by Mark Gardner", Bessie Smith and Derek Smith should be placed before Jabbo and Jimmy Smith.

Duplication	

To the best of our knowledge this supplement contains details of all the discographies published since the Bibliography appeared in August 1969, plus earlier listings that were omitted from the original booklet. We have again included 'monographs' only as we feel that works such as Jepsen's "Jazz Records" are well known to everyone. Label-listings were left out of the booklet and are therefore absent from the supplement, but if 'public demand' warrants it, they may be the subject of a future supplement.

We have not excluded a number of categories whose value is rather dubious; selected listings, the Downbeat drafts, and the R & B discographies that appear in the blues publications and Discographical Forum from time to time; But as several people have indicated they require these, they're in; better to be criticised for superfluous items than omissions. Any enquiries concerning items listed in the Bibliography, and any additions or corrections may be addressed to the secretary.
